

2011

Los Angeles County EMS Agency

Standing Field Treatment Protocol

Provider SFTP Quality Review Schedule

Effective July 1, 2003 patient care record (PCR) critical indicator worksheets were utilized by all SFTP providers. These worksheets were developed by the SFTP sub-committee and agreed upon by the SFTP providers. Beginning July 1, 2011, and after two years of joint collaboration between the EMS Agency and EMS providers, the SFTPs and Base Hospital Treatment Guidelines were combined to form new Treatment Protocols (now listed in the Prehospital Care Manual, Reference Nos. 1200-1277). At this time, the SFTP QI indicator worksheets were revised and approved by three of the twelve (12) SFTP provider Nurse Educators. EMS providers began collecting data under these revised protocols beginning the 3rd Quarter of 2011. The data will be used to develop a system-wide report, which will be distributed to the EMS Agency Medical Director, each SFTP provider and their Nurse Educator and/or QI Coordinator. Listed below is a schedule listing the SFTPs that are to be reviewed monthly and then reported quarterly to the EMS Agency by the dates listed.

1st Quarter (Due May 15th)

January	February	March
1271 Burns 1275 General Trauma 1277 Traumatic Arrest 1210* Non Traumatic Arrest 1248 Pain Management	1244 Chest Pain 1251 Stroke / Neuro Deficit 1252 Syncope	1261 Childbirth (Mother) 1262 Childbirth (Neonate) 1264 Seizure (Pediatric) 1202 General ALS

2nd Quarter (Due August 15th)

April	May	June
1243 ALOC 1210* Non Trauma Arrest	1249 Respiratory Distress	1247 OD/Poisoning 1250 Seizure (Adult)

3rd Quarter (Due November 15th)

July	August	September
1271 Burns 1275 General Trauma 1277 Traumatic Arrest 1210* Non Traumatic Arrest 1248 Pain Management	1244 Chest Pain 1251 Stroke / Neuro Deficit 1252 Syncope	1261 Childbirth (Mother) 1262 Childbirth (Neonate) 1264 Seizure (Pediatric) 1202 General ALS

4th Quarter (Due February 15th)

October	November	December
